Ulrika förvaring

Published 2025-04-04

Ulrika Förvaring är tillverkad av spillmaterial från produktionen av vår hatthylla Nostalgi. Tillsammans med ullfilt och vegetabiliskt garvat läder är det en smart lösning för halsdukar, mössor och vantar, eller för cykelnyckeln. Ullen är en naturprodukt med liten miljöpåverkan och det garvade lädret innehåller inga tungmetaller. Det ofärgade lädret kommer dessutom att med tiden mörkna och få en härlig patina. Varje produkt kan variera i utseende då den är gjord av naturull.

Taxonomy

The taxonomy is an EU standard for systematically classifying economic activities based on sustainability criteria. It promotes sustainability by categorizing businesses according to their environmental and social impact, facilitating the assessment of sustainability performance, and supporting investment decisions for a green transition.

Byggvarubedömningen has participated in the national efforts for a Swedish industry adaptation of the taxonomy under the leadership of Byggföretagen. What we present is in accordance with this industry agreement. Link to the Taxonomy: <https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32020R0852>
